For further explanation of the amendment format required by 37 CFR 1.121, see MPEP § 714 and the USPTO website at <http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/officeflyer.pdf>.

TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted within the time period set forth in the final Office action.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action.

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Continuation of 4(e) Other: The markings to show changes made to the claims are not consistent with the previously examined claims. Specifically, claims 45 and 46 comprise several newly added limitations relative to the previously examined claims (filed 29 April 2002) which are not properly identified by underlining. For example, the phrase "identical sequence sections" did not appear in the previously examined claim 45 and the phrase, "flanked by recognition sequences for sequence-specific recombinases and/or by unique restriction enzyme sites" (emphasis added) did not appear in previously examined claim 46. Likewise, a number of phrases are deleted from the claims presented in the 29 April amendment which are not properly indicated by strike-through (e.g., the phrase "all or a portion of the" in line 1 of claim 45). It appears that the changes indicated in some of the claims are made relative to the claims filed in the preliminary amendment filed 31 January 2000, which were amended in the 29 April filing. Applicant should file a replacement claim set which shows all changes made relative to the previously examined claims as amended on 29 April 2002. The amendment should be consistent with the non-entry of the amendments to claim 68 as stated in the Office Action mailed 3 March 2005..
